The Effects of Regulations on the U.S. Salmonid Industry

Midwest States Findings
Nebraska • Missouri

REGULATORY COSTS PER YEAR:
Coastal States (total) $246,991
On-farm (average) $47,916
On-farm (average) $47,916

LOST REVENUE PER YEAR:
Lost market sales $35,000
Reduced production $17,000

Regulations substantially increased on-farm costs and constrained the industry's ability to meet market demand.

Lost revenue due to regulatory costs 1%
Average regulatory costs per pound of production 0.5
Average regulatory costs of total farm costs 9%
Lower than National average of 12.3%
Lower than National average of 12%
Lower than National average of 1.5%
